Prohibition of Unauthorized Collection of Personal Information

The SKT Roaming I/B Homepage may install/operate cookies that automatically track and collect personal information using its Internet services. A cookie refers to a small piece of text stored on a user's computer by a web browser. It is sent to an HTTP header by a web server to a web browser and sent back by the browser when the server requests. When the user visits a web site, the server reads the cookie to find contained information such as the user name and provides services without demanding any other information.

1. Purposes of Using Cookies

A. Log-in identification

B. Review and Confirmation of Reservations

2. Rejection of Cookies Customers may preserve the right to refuse the installation of cookies. By changing their web browser settings, customers can choose to either allow or block all cookies, or set their web browser to ask them every time when a web site is attempting to install a cookie. When the web browser is set to block all cookies, services that can be provided may be limited (In order to change settings for Internet Explorer, for example, select Tools > Internet Options > Privacy)

Notification or Report of Personal Information Management Policy

1. . The SKT Roaming I/B Homepage shall ask for customers' permission in advance via e-mail or telephone if it seeks to provide their personal information to third parties or use it for purposes that go beyond the scope notified at the time of collection or specified in the Terms and Conditions and the Private Policy.

2. When the collection, handling, or management of customers' personal information is outsourced, the fact shall be disclosed to customers through the Terms and Conditions or the Personal Information Management Policy on the SKT Roaming I/B Homepage.

3. If the SKT Roaming I/B Homepage hands over its partial or entire operation, or transfers its rights and/or obligations due to a merger or succession, the fact shall not only be individually notified to customers via post mail or e-mail, but also posted on the main page of the SKT Roaming I/B Homepage for a period of at least 30 days.

Technical and Operational Measures for Personal Information Protection

In order to prevent customers' personal information that it handles from being lost, stolen, leaked, manipulated, or damaged, the SKT Roaming I/B Homepage takes the following technical/operational measures :

1. Customers' personal information shall be protected through a password. Files and transmitted data are encrypted. Additional security functions are utilized to protect important data.
2. The SKT Roaming I/B Homepage shall be committed to preventing customers' personal information from being leaked or damaged by hacking or attacks due to computer virus. As a precaution against damage to customers' personal information, the SKT Roaming I/B Homepage shall make a backup on a regular basis. It also utilizes up-to-date anti-virus solutions to protect customers' personal information, cryptographic communication to ensure safe transmission of customers' personal information on the web, and a firewall system to block any unauthorized access from outside. As such, the SKT Roaming I/B Homepage shall be striving to be equipped with every technical tool available for the highest possible level of system security.
3. The SKT Roaming I/B Homepage shall adopt such security devices as encryption algorithms to guarantee safe transmission of personal information on the web.
4. The transfer of customers' personal information shall be assigned to a limited number of officers. The officers in charge are provided with a special password which is renewed on a regular basis. They are regularly trained and instructed to strictly follow the Personal Information Protection Policy.
